REHMAN CHISHTI: DELIVERING FOR GILLINGHAM AND RAINHAM

Rehman has a strong record of leading and supporting local investment.

It has been an honour to represent my hometown community of Gillingham and Rainham, and I am proud of my track record of getting things done for local people.

I have secured £31m investment in local health services with the new £6.5m Ambulance Hub, a new hospital A&E department, and a medical school, training more doctors locally. We have also seen £1.5m invested in the Mother and Baby Unit, and I continue to fight for a new hospital.

I received a good education at Napier Primary, Fort Luton Boys, Rainham Mark, and Chatham Girls (mixed) Sixth Form, and I want that same opportunity for all. That is why I will always protect our grammar schools, and work to ensure all can get access to an excellent education, supported by 18 of our schools now rated 'Good' by Ofsted.

Delivering a strong local economy is essential, and hardworking people and local businesses have benefited from over 9,500 apprenticeships being

complete in our towns since 2010.

I continue to be a champion for protecting our green spaces, including successfully opposing the estuary airport proposal, and the unacceptable Pump Lane orchards housing development.

I have also secured a record number of police officers for our area, and £111k for High Street community safety.

I will continue to be a strong voice who delivers for Gillingham and Rainham.

GENERAL ELECTION Thursday 4 July 2024

RE-ELECT

REHMAN CHISHTI

The Local Choice for Gillingham and Rainham

FIGHTING FOR A NEW HOSPITAL FOR MEDWAY

Rehman is working with local residents and Medway surgeon Professor Shetty in his campaign for a new hospital for Medway, and he has worked tirelessly to secure more investment in local health services.

I recently joined Professor Shetty to collect signatures for a petition for a new hospital.

I have championed the hospital and funding for local health services at every level since I was first elected in 2010.

During my time as a Member of Parliament, Medway Hospital has received significant investment, including:

- A brand-new state of the art Emergency Department and dedicated Emergency Department for Children.
- £1.5million additional funding for the Mother and Baby Unit.

I am also proud of working to secure £6.5million to deliver the first Ambulance Hub in the country to include an NHS 111 contact centre, an emergency operations centre and make ready centre under one roof.

This excellent facility opened last year in Gillingham.

Training new doctors is also a top priority, which is why I worked with local health professionals in order to make strong representations to Government for a new medical school to train more doctors and GPs for our area.

My efforts were successful, and I was delighted to see the new Kent and Medway Medical School open in 2023, a Government backed partnership between the Universities of Kent and Canterbury Christ Church.

I also successfully fought for a Covid-19 mass vaccination centre for Medway, which was located in the Pentagon Centre for local people.

I will continue to fight for a new hospital, and for the best health services for our towns.

Rehman continues to fight for a new hospital.

Doctors and GPs are now being trained locally.

Rehman is a champion for local health services.

WORKING HARD ON THE ISSUES THAT MATTER TO YOU...

THE BEST EDUCATION AND PROTECTING GRAMMAR SCHOOLS

I am proud to champion our schools with 18 of our local schools rated 'good' by Ofsted. I'm committed to protecting our local Grammar Schools, and to ensuring every child in Gillingham and Rainham has the very best opportunities to reach their full potential.

KEEPING OUR COMMUNITY SAFE WITH RECORD POLICE OFFICERS

I have worked with our PCC to secure extra investment for our local area with each local ward having a dedicated police officer. With over 4,000 personnel, Kent Police now has the highest number of officers in its history.

PROTECTING GREEN SPACES

I have consistently worked with local residents to protect green spaces, from the Capstone Valley, to the Lower Rainham Road, East of Rainham, and on the border in Lidsing, I will always fight against unacceptable building.
